A Plea for the late Grand Jury.

In copying yesterday the feeble presentment of the late and lamentable Grand Jury, we took oc-casion to brand as wilfully and wickedly false cach and every allegation made in regard to the Sent.not. The News, in behalf of "the U. S. Court, its officers and jurors," makes answer to this by pointing us to the offending article, which one than the appointment of Mr. D. prompted the presentment. "An article," says 11 to Daily News, as Register of the Mil- the News " in the New Democrat, copied apprevingly in the Sedinet of Saturday, will suffice oter purpose." So it will ours, and we accept the sand thus tendered. Here is that article, word for word, as we copied it :

The Clark of the U. S. D. drict Court, a son o Judge Miller—all in the family—yesterday re-hused to give the Sindral the first of the Giand Jarons. Learning from their reporter, that he could not get it, we made no application. It is the first time we ever knew a Court, or the Clerk the first time we ever knew a Court, or the Clerk of a Court, reines the press a list of the names of the Court Jury. The Grand Jury itself a is a the nature of an inquisition, and when Judge Miller's course abolishes it, so far as to make it his instrument to talores his will—there is no protection to the citizen sgainst the rankest injustice and tyranny. Just keep the names of the Grand Jarors a secret, so that they will not be held responsible to a healthy public sentiment, and they can then stitke in the dark and take away the property and liberty of the people, at then will. Do not the people see that such a Court, with its staff quanticed upon its, striving to fine and imprison our citizens, is but the tool of the Slave Power of a power hostile to our rights and interessed unknown to the Cansitution?

The Sentiael cupied that article "upprovingly."

is mon this that, the Grand Jury founded their itterly false charge, that the Scalinel had defended those who resisted the execution of process, and published" throats and abusive mistepreson attens of the Court, its officers and jurous" ! Out of their own mouths and by their own wit ness do they stand condement. "Threats," inlead! Why, bless then innocent souls, we would not burn a hair of their silly heads, if we ould.

But enough. The public have already adadged the case. Outside of the "sacred circle" and its twin apologists the News and Wisconsin, ho verdict is ananimous. It is that the late leand Jury was a jury of old grannics and made onspicuous asses of themselves in their " procontrient." So let it be recurded.

## Another Prescalment.

We published yesterday ine prescriment of the We published yesterday the presentant of the Too Allies are summand the Winting and Too Allies are summand to the too Allies are summand to the Allies are summan dependent Fiess for their statements and sure-tures, in regard to the practical workings of the infamous Fagitive Blave Act, as administraci in Judge Marken's Court. To-day we give a par-allel to it, from a South Coolina Grand Jury, ble. presenting the African Stave Trade as "A blessing to the Anteriesa People and a benefit to the Africans," and the Legislation of Congress which From by he Congress, beyond pussing abolished it as "a public grievance." The two responding Bills-there will be no Inter- presentments match so well that our roaders will to Congress, and a correct, list of the member do well to cut them out and hang them up-with elect to the Teritorial Legislature : the jurers who made them.

PRESENTATION. We, the Grand Jury of Williamsburg District, at Fall Term, 1854, do make the following presentment, viz. We present, as our manimous opinion, that the Federal Law abolishing the Afis a result i thing, but it cannot have a rien slaw trade is a public gravance. We hold that this trade has been, and would be, it re-established, a blessing to the Ansaich people, and is benefit to the African himself. We would show further, that this trade is consistent with the true policy of the South; that slavery itself is authorized and sanctioned by Holy Wiit, and experience has taught us that, by introducing African always into the United States, the African has been elevated from a condition of absolute barbaian area as a formal property of all distances. aniam, to one of geomparative civilization; from equilition of heather darkness, to one of Ohrican hight; its nat condition of despotic and should tran hight there a condition of despote sustenantic missule, to one of benign and regulated law.—
We hold that slavery is harbidden by no principle of policy or telegion, except that which somes most the freezest imagination of tanatic philanticopy, which arrogantly assumes to be pure and holier "than what is written," and we here. fore recommend this subject to the consideration and action of the Legislature of this State, and must that the evil complained of may be reme-

The Seige of Schastopul.

We copy from papers received by the Asia, the following interesting continuation of the dury of the seign of Sebastopol -SEBASTOPOL.

We resume the diary of the seige. Nov. 22. The war correspondent of the London Times says "Although it may be dangerous to communicate tacts likely to be of service to the Russians, it is certainly beaudous to conceal the truth from the Logish people. They must know sooner or latteries having the page of the property English people. They must know somer or later that the seige has been for many days practically an arrivable to the first own battones are used up and alient, and that our arroy are exhausted by the effect of the excessive labor and watching to which it has been so incessantly expessed. The Russians know it wellfelough. The relaxation of our lite is self-evident; but out army, though weakened by signeres, is still equal to holding its position, and to milat chastisement on assertants who may venture to attack. Nothing would as not mate our man, destine of all stimulating influences, beyond those of undanated spirits and the prospect of meeting the furnishments and deciding the campaign by the part of the bayonet.

Now 26.—The fight between the French and Russian ritlemen, andert by antillery, was as usual ronewed last night. The object of contention is a mode fort, sear the Quarantine Buttery, which the French persist in holding, although assless. Preparations for the renewal of a general bombardment are being proceeded with from day to day; the great obstacle is the bad state of the reads.

Nov. 27—Nothing occurred.

Nov. 28—During the day the Ressians fire on the British about one gun overy five minutes.—The Rugish look-out man eries "Tower," (Redding" or "Garden Battery," and the shoti rentered. Bet the fire on the French is much more lively, and is kept up with some effect on their earthwork and parallel. Rivery night about 7 o'clock the Flag-Staff, Quarantine, and Wall batteries open a formulacian mountainty to firty-live minutes, is as lard as the mone our load, right into the French lines, and then follows instantly a sally, the result of which is invariably the same—the Russians push a strong column out of the place, rush towards the irist line, drive in the place, rush towards the irist line, drive in the place, rush towards the should be the first parallel, sometimes into it, occasionally beyond it, and close to the second parallel, where they are received as they advance by the French covering parties with a deadly in me; they halt and fire in return, are charged by the French covering parties with a deadly in the French covering parties with a deadly in the French lose forty or fifty men, but the loss of the Russums in these aderies must be considered.

Frequently about daybreak the Russians repeat the performance.

Nov. 29.—Storms, wind and min. The Russians

sians have much attengthened their defences-They have scraped the ground in front of their intteries, have constructed strong abattis in front of the lines, thrown up numerous earthworks, and made sunken batteries before 'all their redenotes an enter as, is one that control and share and the Power' of a power hostile to our rights and his etties and unknown to the Constitution?

The Sentinel capied that article "approvingly," says the Acce. So we did. We approve it still and we appeal to eyery right-thinking, independent man in our State to say, whether it does not speak the plain and simple return. And yet det the Russians with a dendly volley—then leaping down, attacked them with the beyonds and

Nov. 30--A heavy fire on the French during the might. The Grand Duke Maked was observed making a reconnerance at a distance of 1000 yards. Flags of truce were exchanged specting money for the prisoners.

Dec 1—Mayo min. The state of the reads prevented the arrivals of supplies, and part of the British forces were temporarily put on short al-

New Tylal Granted to Green. Judgo Mortis has granted a new trial to Geo. W. Green, conjucted of poisoning his wife, on account at a misunderstanding hatween biaself and the prisoner's counsel in regard to the ruling of the Count in the exclusion of testimony. The other points raised on the motion were all over-

mlad.

It will be recollected that it was proved by the prosecution that Green had made proposals of marriage to Mis Blane on the death of his wife, which he said would take place before long, thus establishing a motive for per uning her. The defense endearmed to rebut this presumption in two ways; hist by impencing the witness who testified to the last and second by showing that she was a long woman and it was therefore impossed that the resource had intended to marsho was a lowed woman and it was therefore improbable that the presence had intended to marry her. Whenever they asked questions of any witness as to the character of Mrs. Blane for chastity, the Judge supposing them put under the effort to impeach, excluded the answers. The counsel for the defense have made affidayit that they were thus problidted from offering evidence to destroy the presumption that Green murdered they were thus probibited from offering evidence to decitor the presumption that Green murdered his wife to marry Mrs. Blane. Had Judge Moris understood the object of the questions, the testimony would have been endmitted, as it was competent for the pulpose proposed.

More Constructive Treason.—Mr Wendell Phillips was yesterday arraigned in the United States District Court, upon an indictment for participating in the Fancuil Hall meeting, and the inner treasure of the formal state of the formal state of the court of thus impeding the process of 'delivering up' Anthony Burus. We have only to say of this case what we have said of those preceding it—we believe it to be an unnecessary prosecution. No possible result of it can pursua at, I'fallips, even if he has been guilty of a violation of the attitle; while it is convergence and the careful and the convergence of the statute; p espect of meeting the Russians outside their antreachments and deciding the campaign by the p ant of the bayonet.

On last night there was a brisk affair between the Chasseurs de Vincumes and Russian Rifferment, in front of the Plagstoff battery earthworks, and the Russians dispolled all abourd myths about their being in want of powder and ball, by a most tremendous cannomate. Assaults and counter assaults continued and a lurious fire, which lighted up the skies with sheeds of flame from 9 o'clock at night until 4 o'clock in the morning. The French normally penetrated behind the outer entrenchments, and established themselves for a time within the "enceinter," but as there was no preparation for a general ressault they withshew. Volles of maskery and solves of cannom roused through the camp during the whole night, but few lost their rest in consequence, for those affairs are new a nightly occurrence.

Thereupon one or two members of the Board safed that they had no doubt that, under the circumand they had no doubt that, under the circumstances of the case, it was proper to make some allowance to Mr. Markery, and the only query with them was, whether \$500 was not too much, and \$300 was then suggested and adopted. It will be recollected that it was proved by the prosecution that Green had made proposals of marriage to Mis Biane on the death of his wife, which he said would take place before long, the establishing a motive for per oning her. THE TEXAS LAND GRANT-WALKER & Co.-The ups and downs are not yet done with b Walker, Jaudon and Butter King. The Governo refused to receive their deposit of clock becaus he doesned it uneste; the Treasurer of the Stat accepted it, because he was interested in the Company; the Governor forbid the acceptance; the Treasurer hung on. Then a newspaper war brokent, in which the Senators Houston and Rusi out, in which the Senators Houston and Rugit took sides with the Governor; and so the offsit remains—probably for the decision of the Legis siture. Taken all in all, this attempt to swindle Texas out of her twenty millions of acres of land grant, is about the most endacious that we have seen. A nest of insolvents, now and for year anaccossible to executions, and notorious for speculations at the expense of the public and individuals, to undertake a railroad to the Pacific !— The impudence is anazing, and can only he accounted for from the reliance they have apon the administration which bought the track for the road at ten millions.—[Missouri Democrat, Jan 8th.

This is the first time eince the existence of the Sentine, that it has been presented by a Grand Jury. Ordinarily we do not regard presentments of much account. - [ Wisconsin. Very right! We think, with Mr. Toors, that such presentments are " of no consequence."

JUDGE MILLER PRESIDING.

Tuesday, Jan. 9. The business of the Court commenced by Mr I. H. Paine, who addressed the Court, asking permission to put on tile a metion to quash the indictment in the case of the United States vs. S. M. Booth, accompanied by several affidavits upon which the motion was founded. Mr Ryan replied to the motion, stating that he discovered in Philadelphia, but two grounds, one was that one of the Grand Jurous was an enemy to Mr. Booth ; and the other was that another of the Grand Jury was or

Mr. Paine replied at some length, stating tha

July last, and after a short time, the defendant warved his arraignment upon the second, found at the present lerm, and plead not guilty, and claiming time to plend further, was granted till this morning to plead, the Court stating that the pleanfunct guilty, was no barto a motion to ansh at a subsequent time.

The next case of any importance was that of the United States vs. A. W. Hatch, indicted upon charge of embezzling U.S. monies. Defendout pletal Not Guilty. After some routine business, hearing of motions, &c., Court adjourned till this marning at 9 o'clock when, it is understood, the case of the U.S. vs. S. M. Booth, vill be called on for trial.

The above is all the business, in the Police Court; business is light, as at this time last year. Much has been said in soveral papers of this city about an allowance by the Board of Supervisors of \$500 to James A. STREET BEGGING .-- We observed yesterday a number of children begging in the streets. It is he first time we have seen it this winter. But the scarcily of employment in the city, and the inexplicable tenucity with which laboring men will cling to it, never seeking accupation in the country, must bring want to their children when aborers cannot find work to do.
